

Testing Schedule

Under no circumstances should you begin any session of any online test unless there is enough time to complete it. Each test session must be administered in its entirety in one sitting.

The table below provides the time schedule for the test. All test session times now include the extra 10 minutes that were previously optional. Some studies have shown that more than one hour of additional time can contribute to a decrease in students' scores. **Note: Extended time must be given as an immediate extension of the same testing session, not at a different time.** Students who finish early should NOT be allowed to use their computer device or cell phone. Instead, they may read, or sit quietly until the end of each test session.

Times are approximate for scheduling purposes only.

Below are the 2019 eMPowerME Math and ELA test session times.

2019 eMPowerME Testing Times (Math & ELA/Literacy Grades 3-8)

Mathematics – Reading – Writing & Language – Essay 3/18/19 – 4/12/19

Test Section	Number of Sessions	Testing Time Per Session by Grade		
		6th	7th	8th
Mathematics	2	75	75	75
Reading	2	80	80	80
Writing & Language	2	35	35	35
Essay	1	70	70	70
Total Testing Time	7	450	450	450

- Total test session times now automatically include the extra 10 minutes that were previously optional.
- Testing times DO NOT include 5-10 minutes for directions before each session.
- Test Sessions must be completed in one day, and only within the allotted time limit. Even with extended time, if students do not finish a particular test session within a single day, they are NOT allowed to return to that test session on another day.

Schedule

Monday	Tuesday	Wednesday	Thursday	Friday
Math 1	Math 2	Essay	Reading 1 Writing 1	Reading 2 Writing 2
